The image shows the interior of a motorhome, specifically the overhead storage area. Several white, L-shaped storage brackets are mounted to the ceiling. These brackets are designed to hold long, narrow items like surfboards or skis. The ceiling is white and features a recessed air vent. A grey track with three white stripes runs horizontally across the ceiling. The overall lighting is bright and even.

Levier de frein à main

A black control monitor is mounted on a silver plate on a vehicle's dashboard. The monitor's screen is dark and displays the 'MOTORLAND' logo in a white, stylized font. The logo consists of a stylized 'M' with a curved line through it, followed by the word 'MOTORLAND' in a spaced-out, sans-serif font. Below the screen, there is a row of five buttons labeled 'V1/V2', a circular arrow icon, 'MENU', a minus sign, and a plus sign. To the right of these buttons is a power button with a power symbol. The monitor is positioned in front of a steering wheel, which is partially visible on the left. The background shows a bright, out-of-focus view through the vehicle's windshield.
