A close-up photograph of a vehicle's interior, focusing on the center console. A manual gear shift lever with a silver-colored knob and a grey leather boot is the central element. To the left, a panel of black buttons with various symbols (including a red emergency stop button at the top) is visible. To the right, a black plastic console features two circular cup holders. The overall design is functional and typical of a commercial vehicle. The text 'MOTORLAND' is overlaid in the center in a white, outlined font.
