Phare halogène

A close-up photograph of a car's interior, focusing on the light and turn signal stalk. The stalk is black and has several white icons: a sun-like symbol for headlights, a symbol with three horizontal lines and a 'D' for fog lights, a symbol with two arrows pointing left and right for turn signals, and the word 'OFF' at the bottom. The background shows parts of the steering wheel and dashboard.

Contrôle de stabilité

A close-up photograph of a car's interior dashboard. The dashboard is covered in black leather with a pebbled texture. Two rectangular air vents are visible. The upper vent has three horizontal slats. The lower vent has five horizontal slats and a central circular control knob. A semi-transparent watermark with the text 'MOTORLAND' is overlaid across the center of the image.

Sortie d'air climatisation

A close-up photograph of a manual gear shift lever inside a vehicle. The lever has a black, textured knob with a gear pattern and letters (P, R, N, D, 1, 2, 3, 4, 5) embossed on it. The base of the lever is black and has several horizontal ridges. To the left, a portion of a black leather seat is visible. To the right, there is a black plastic footwell tray. In the background, a white plastic panel and a black foot pedal are partially visible. A watermark "ML MOTORLAND" is centered over the image.

Levier de boîte de vitesse manuelle

A close-up photograph of a car's ignition system. A black key with a silver metal blade is inserted into the ignition cylinder. The key has a black plastic head and a silver metal ring. The ignition cylinder is set into a black plastic dashboard panel. To the right of the ignition, there is a beige plastic panel with a music note icon and a small rectangular slot. The background shows the interior of the car, including the steering wheel and the floor.
